introduces the new field of political bioethics focusing on the peculiarly political questions posed by human genetic engineering

human nature in modern economics offers a precise definition of the concept of human nature in

economics something that is so far lacking in the theoretical and methodological literature this book develops tools for the analysis of human nature through the construction of the author's meta model based on anthropological and psychological foundations allowing for comparisons of anthropological assumptions made in economic theories the model demonstrates that the normative functions of human nature may affect the economic reality the chapters argue that the concept of human nature determines our thinking about the economy and economics including fundamental methodologies methods and theories thus the differences between various economic schools may result from the different assumptions of these schools about human nature those evolving views of human nature proceed to explain the development of both orthodox mainstream and heterodox economics the book marks a significant addition to the literature on the history of economic thought heterodox economics economic theory and economic methodology for students it is a supplement to standard textbooks as it explains the current state of economics especially in its heterodox branches it will allow scholars to discover the importance of what they assume about human nature and how it may influence their research process

translated edited and introduced by edward y j chung the great synthesis of wang yangming neo confucianism in korea the chonon testament by chong chedu hagok is the first study in a western language of chong chedu hagok 1649 1736 and korean wang yangming neo confucianism hagok was an eminent philosopher who established the unorthodox yangming school yangmyonghak in korea this book includes an annotated scholarly translation of the chonon testament hagok's most important and interesting work on confucian self cultivation chung also provides a comprehensive introduction to hagok's life scholarship and thought especially his great synthesis of wang's philosophy of mind cultivation and moral practice in relation to the classical teaching of confucius and mencius and his critical analysis of zhu xi neo confucianism and its songnihak tradition chung concludes that hagok was an original scholar in the songnihak school a great transmitter and interpreter of yangming neo confucianism in korea and a creative thinker whose integration of these two traditions inaugurated a distinctively korean system of ethics and spirituality this book sheds new light on the breadth and depth of korean neo confucianism and serves as a primary source for philosophy and east asian studies in general and confucian studies and korean religion and philosophy in particular
